SKILLS:

Languages & DSA: JavaScript | TypeScript | Python | Data Structures & Algorithms (DSA)

MERN Stack & Next.js: MongoDB | Express.js | React.js| Redux | Node.js | Next.js | State Management (Recoil, Context API) | Custom Hooks | NextAuth Authentication | SSR | SSG | Responsive Design with Tailwind CSS

Backend & Databases: TypeScript | Prisma ORM (PostgreSQL) | REST APIs | PostgreSQL | MongoDB | Redis | Apache Kafka | Express.js | Webhooks | Middleware | Global Error Handling | JWT | Axios | Serverless Functions | Auth Using Cookies | Singleton Pattern | Horizontal Scaling | Vertical Scaling | CAP Theorem | Docker | Postman

EXPERIENCE :

Fusion Web Dynamics   Mumbai, Bandra

Full Stack Developer   January 2023 – Present

E-Commerce Platform: Enhanced an e-commerce site with **MERN stack** and **Next.js**, boosting **retention by 25%** and **conversions by 15%**. Optimized performance and integrated payment gateways.

Custom Authorization: Developed secure, role-based authorization with **Zod** and **JWT**, enhancing login security and access management.

Frontend Development: Built responsive interfaces using **Tailwind CSS** and collaborated with designers to implement functional components.

Backend Development: Created and optimized **API routes** with **Express.js**, improving performance and scalability.

Project Management: Oversaw timelines and task coordination, ensured timely feature delivery, and participated in **code reviews**.

PROJECTS:

Zapier-like Application | Next.js, TypeScript, Tailwind CSS, Prisma, PostgreSQL   [(Source-code)](#)

 Developed a workflow automation platform using **Next.js** for the frontend, **Apache Kafka** for **real-time data streaming**, and **PostgreSQL** with **Prisma** for data management. Implemented **custom authorization** with **Zod** and **JWT**, and used **Tailwind CSS** for responsive design. **Express.js** was utilized for routing.

E-Commerce Website | MERN stack, JavaScript, Tailwind CSS, Cloudinary, Redux   [(Source-code)](#)

Created a comprehensive **e-commerce platform** with the **MERN Stack (MongoDB, Express.js, React.js, Node.js)** and **Redux** for state management. Designed both an admin panel and a shopping panel. Applied **Tailwind CSS** for responsive styling and built custom **authorization pages**. Express.js was used for **backend routing**.

EDUCATIONS:

MCA   LATE BHAUSAHEB HIRAY S.S. Trust's Institute of Computer Application   (2022 - 2024)

BSc IT   Mahendra Pratap Sharada Prasad Singh College   (2019 - 2022)

CERTIFICATIONS:

[0-100 Full Stack Web Development](#) – **Harkirat Cohort**

[Research Methodology](#) – **NPTEL, IIT Madras**

[Project Management](#) – **NPTEL, IIT Roorkee**
